Exeter Conservation Commission

Tax Map/lot 51/1

June 29, 2011 6:30 pm

Present: Ginny Raub

Guest: Jim Gove, Gove Environmental Services

Following the presentation by Rollinsford Associates of a draft site at the June 14, 2011 Conservation Commission meeting plan for development of a parcel on Portsmouth Ave. Tax Map 51, Lot 1 Mr. Jim Gove, the wetlands scientist for the project agreed to meet with members of the Commission for an on-site visit of the parcel.

At this June 29th meeting, Mr. Gove noted the proposed pavement perimeter and the staked building perimeter. Because of the density of the undergrowth Mr. Gove was unable to find stakes placed earlier this spring denoting various points and so we did not venture into the interior of the parcel.

Working from aerial maps and site plans Mr. Gove did review and answer questions in more detail on various features and details of the proposed development.

Meeting adjourned 7:00 pm

Ginny Raub
