10. Received email from Lana Sommers as follows:

My name is Lana Sommers and I am the founder of the Art Outreach Program at Exeter High School. I founded the program this year to try to involve the students with Special needs kids that also go to the school. The goal was to make art together and make friends. Throughout the year, the kids have made wonderful works of art and I am working on displaying them in a gallery show later this year. I would love any advice you have on setting this up because you all have experience with gallery shows. This is a wonderful opportunity to showcase special needs kids art work and I would love if you would attend and advertise the event to the exeter art community. The event will run on June 4th, at 6-7:30 in the Exeter High School art room A216. I hope to get as many guests as possible and as many appreciative artists as possible. I believe one of your members met my cousin Malea Gasho and she is also helping me set up the event. She is a local artist along with myself. I am hoping for your support on this because I would love to encourage art in the Special Ed schooling curriculum. Thank you for your time, Lana Sommers.

If anyone would like to represent the EAC by attending, that would be wonderful.

11. Art Panel placement—Bob Richardson
12. KLT needs help with hanging the framed print over piano after meeting.
