PUBLIC NOTICE EXETER CONSERVATION COMMISSION

The Exeter Conservation Commission will meet in the Nowak Room of the Town Office Building, Exeter on **Tuesday**, **April 14**th, **2015 at 7:00 P.M.**

Call to Order:

- 1. Introduction of Members Present
- 2. Public Comment

Action Items

- 1. Street Tree program update Eileen Flockhart
- 2. Father's Day Orienteering Event *Deb Humiston*
- 3. Linden Commons encroachment agreement
- 4. Forest Management Plan Contract and Budget Discussion
- 5. Officer Positions
- 6. Committee Reports
 - a. Trails
 - b. Outreach
 - c. Property Monitoring
- 7. Approval of Minutes: March 10th, 2015
- 8. Natural Resources Planner's Report and Correspondence
- 9. Other Business
- 10. Next Meeting: Date and Agenda Items

Jay Gregoire, Chair Exeter Conservation Commission Posted April 9th, 2015 Exeter Town Office, Exeter Public Library, and Town Departments.

ENCROACHMENT AGREEMENT

This Agreement is dated April ___, 2015 between the Town of Exeter, a municipal corporation, duly organized and existing in Rockingham County, New Hampshire, with an address of 10 Front Street, Exeter, New Hampshire 03833 (the "Town") and Patrick Breen and Bartolini, with an address of 63 Linden Street, Exeter, New Hampshire 03833 ("Breen and Bartolini").

WHEREAS, the Town is the holder of a Conservation Easement overa portion of the propertyidentified as Tax Map 95, Lot 67, located off Linden Road, Exeter, Rockingham County, New Hampshire, dated February 24, 2011 and recorded with the Rockingham County Registry of Deeds at Book 5197, Page 1038 (the "Conservation Easement").

WHEREAS, Breen and Bartolini are the owners of certain property identified as Tax Map 82 Lot 16, also known as at 63 Linden Street, Exeter, New Hampshire, as more particularly described in the deed dated June 23, 2014, recorded with the Rockingham County Registry of Deeds at Book 5540, Page 2644(Breen's Property").

WHEREAS, the original survey delineating the Conservation Easement and Tax Map 95, Lot 67 was incorrect and included a portion of Breen and Bartolini's Property, which Breen and Bartolinior their predecessor have owned and occupied for thirty (30) years.

WHEREAS, a lot line adjustment plan entitled, "Lot Line Adjustment Plan, Map 95, Lot 67 & Map 82, Lot 16," prepared by Jones & Beach Engineers, Inc., dated November 19, 2014, was approved and recorded with the Rockingham County Registry of Deeds as Plan D- (the "Plan") to correct the lot line.

WHEREAS the Plan changes these two lots and transfers Parcel "A" to Breen.

WHEREAS, Contoocook River Lofts, LLC, transferred Parcel "A" to Breen and Bartolini to be consolidated with the their property by deed of or near even dated, recorded herewith.

WHEREABreen and Bartoliniwish to obtain the right to encroach upon a portion of the Conservation Easement shown as Parcel "A" on the Plan.

NOW THEREFORE, in consideration good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, the parties agree as follows:

- The Town hereby grants and permits Breen and Bartolini to encroach upon a portion of the property burdened by the Conservation Easement identified as Parcel "A" on the Plan, given the existence of the encroachments for a period in excess of 20 years prior to the execution of the Conservation Easement.
- 2 Breen and Bartolini may use Parcel "A" for its existing purposes, but not introduce any new uses, which violate the Conservation Easement.
- This Agreement shall inure to the benefit of, and be binding upon the parties hereto, and their respective heirs, executors, successors and assigns.
- 4 This is the entire agreement between the parties. Any changes must be made in writing and signed by both parties. Any disputes must be brought in the State of New Hampshire.

IN WITNESS WHEREOF this Agreement has been executed by the parties hereto as of the date above.

Town of Exeter, acting through its Board of Selectmen

To Conservation Commission:

I cannot attend the April 14th meeting being away for awhile so I am sending this note.

As we discussed at the March Con Com meeting, Kristen and I have prepared a draft Forest Management Plan budget and time line (both attached) based on the information received from Charlie Morino. attached are Charlie's proposed contracts for invasive treatment and for the logging operations.

The budget portrays the FMP expense and revenue possibilities.

- The invasive treatment work is included as an estimated allowance, the actual figures will need to be acquired as part of Charlies contract work.
- Charlie has estimated the logging revenue in the range of \$15,000 to \$20,000. However, it could be less
- Thus the net proceeds range--as shown in the budget-- could run from a downside risk of negative -\$2,800 assuming \$15,000 in revenues to a net gain of \$2,200.

Kristen recommends that we utilize the following amounts and budget line items.

- Interns (Temp Sal/Wages) \$3024
- Contract Services \$1450
- Conservation Land Admin \$500
- Trail Mgmt & Maint \$400 (leaving \$200 ?? for emergency repairs if needed)

That would total \$5374. \$1426 remaining, to come up to the \$6,800 needed, could potentially come from what little is left in the Conservation Fund. We have \$1400 in there that we have received from LCHIP as reimbursement for monitoring our properties. The budget labels this "restricted" but there really is no true restriction on what it can be spent on. The \$26 we can make up for in the FICA/Medicare line items.

There are other some additional thoughts and suggestions.

- If all goes well, the FMP could have a positive financial outcome. However, as shown in the budget there is a downside risk of perhaps \$2,800; or more if the \$15,000 in revenue does not materialize. The Con Com needs to carefully consider the decision to go forward and consider options for limiting the expenses.
- Charlie's contract includes assistance for outreach to the community. However, assistance from the Con Com will be needed in writing, publishing and posting outreach information. Perhaps the Outreach Committee could provide that assistance.
- Both the invasive treatment phases as well as the logging operation phases will require Con Com participation in terms of community awareness and outreach but also contract oversight and compliance. Kristen will be available as a resource for that purpose but will need Con Com member assistance for frequent on site verification of the contract operations, environmental impact oversight, and contract quantity verification and contract specification compliance.
- If the Con Com decides to proceed with the contracts it also must commit to being involved in the due diligence and compliance aspects to insure a successful outcome.
- That successful outcome will also depend upon how the Con Com organizes a process for providing the oversight; ie who, what and when. So, I suggest forming a Con Com Oversight Committee. The oversight process should be should be developed in consultation with Charlie Marino.

Thanks and have a productive meeting.

Don

Charles Moreno, LPF Consulting Forester PO Box 60 Center Strafford, NH 03815

Landowner:

Town of Exeter Exeter Conservation Commission Attn: Jason Gregoire, Chair 10 Front Street Exeter, NH 03833

PROFESSIONAL WORK AGREEMENT

March 9, 2015

Job: Project Management for Forest Improvement Harvest (Implementation of Oct 2011 Forest Management Plan)

Location: Area #2, 60± acres, covering the southwestern section of the 240.5± acre Henderson-Swasey Town Forest which is located on the northwest side of Newfields Road in Exeter, New Hampshire. Exeter Tax Map Lots: 39-2, 39-3, 40-13, and 49-8.

Project Task Description:

I. Preparation of Forest Harvest

- a) Field location and demarcation (painting or flagging) of property lines.
- b) Access logistics: >Road reconnaissance, assessment of needed improvements.

>Contact with gas line company for specifications of gas line crossing.

- c) Selection and marking of trees to harvest for forest improvement and habitat management, in accordance with forest management plan.
- d) Volume measurement and summary of sawtimber marked for harvest.
- e) Preparation of *harvest permits*: Intent-to-cut and Wetlands Notification (logger must submit and be responsible for compliance both permits).

II. Administration of Forest Harvest:

- a) Project bid preparation: Prepare bid forms, harvest specifications. Contact potential bidders.
- b) Showing(s) of operation to harvest contractors; solicitation of bids; meeting to open & review bids.
- c) Negotiation and preparation of logging contract.
- d) Supervision of harvest operation.
- e) Cost/revenue accounting.
- f) Communications with Exeter Conservation Commission or other town representative(s).

Professional Service Fees: (Projected cost \$7,800±)

Moreno Forestry Associates personnel, NH Licensed Professional Foresters (LPF)

Charles Moreno and Gregory Jordan @ \$75/hr.

Part I: Projected as 45± hours, with \$275± materials (paint). Total projected cost: \$3,650±.

Part II: Projected as 55± hours. Total projected cost: \$4125±.

Service Quotation and Conditions:

- I. Project cost is not to exceed \$8,500 without explanation to, and authorization by, the Conservation Commission or Board of Selectmen
- II. Billing for Harvest Preparation and Administration, Part I and II, to be made at the time of the logging operation, when stumpage payments are received from logger or mill, unless harvest operation is delayed more than 6 months, in which case, billing for preparation time will be submitted to the Town.
- III. Logger/sawmill stumpage payments will be supervised by Charles Moreno, via an escrow account. Charles Moreno will deduct above quoted fees and send stumpage balance to Landowner (Town), with full accounting.
- IV. Stumpage revenue received by Landowner (Town) will be dependent on types of forest products, timber volume harvested, and price received for timber.
- V. The Landowner (Town) will reimburse Charles Moreno for professional time spent on this project if the Landowner (Town) decides to cancel or postpone project after professional services have been initiated.

Acceptance S	ignatures:

Draft Minutes Exeter Conservation Commission March 10, 2015

Call to Order

The meeting convened at 7:03 pm in the Nowak Room of the Exeter Town Offices on the above date.

- 1. MEMBERS PRESENT: Don Briselden, Maggie Matick, Pete Richardson, Ginny Raub, Mike Field, Cynthia Field, Alyson Eberhardt, Jay Gregoire (Chair) STAFF PRESENT: Kristen Murphy (Natural Resource Planner), Sarah McGraw (Recording Secretary)
- 2. Public Comment: Comments made after action item #1.

Action Items

1. Standard Dredge and Fill for site development at 156 Epping Road to remediate unpermitted wetland impacts. Tax Map and Lot 47/01

Michael Juliano of Eaglebrook Engineering & Survey LLC described the restoration and development project for the site that had been brought to the ECC at the last meeting in February. Mr. Juliano discussed the storm water treatment of the site. Patrick Seekamp of Seekamp consulting described in detail the planting plan for the remediation including hydraulic flow of the site, native plants to be seeded and the monitoring of the site throughout the process.

Board Comments:

Ms. Raub asked if the berm was constructed or existing. Mr. Juliano responded it had been an existing berm. Ms. Raub was concerned the berm would cause standing water. Mr. Juliano replied that the berm was porous.

Mr. Richardson asked about how water flows through this property from the adjacent lands. Mr. Seekamp said wetland impacted provided an intermittent flow connection through the area. Mr. Richardson for the timeline of the project. Mr. Juliano said it would take 4-6 weeks with the plan to start in early fall. Mr. Seekamp said they may start planting native species in the middle of June. Mr. Richardson further asked about the building addition.. Mr. Juliano said the building was not increasing in surface area. Mr. Richardson asked about the existing drain and if it would connect to the created pond. It was clarified the existing parking area will be captured in that drain through catchbasins and carry water south of the property, the new parking area would picked up by the stormwater quality swale and tree box filters into the constructed pond In relation to a question asked about the road crossing shown on the plan. Mr. Juliano said there were no plans at this point but there is a possiblity to do so in the future and they would need to come back at that point. Mr. Richardson asked about the 40' and 25' buffer. Juliano noted the water quality swale and tree box filters were beyond the 25' wetland buffer.

Ms. Eberhardt inquired about whether the functions and values of the impacted wetland are retained in the proposed wetland. Mr. Seekamp explained based on wetlands that have not been disturbed, the wetlandsare narrow and run through woods in a dense canopy of pine, hemlock and hickory. Mr. Seekamp explained further that the wooded wetland swale has high functions with

evidence of logging. There is also bird habitat where there is a mature canopy. Mr. Seekamp said the wetland discharges in the spring and recharges in the fall. He confirmed there was no evidence yet of rare species and added the intent of remediation was to bring the functions of the wetlands back to the area. Mr. Seekamp added, with two to three site visits he has only begun to look at the soil profile.

Mr. Seekamp said that the Applicant has filed with the New Hampshire Department of Environmental Services and talked with the ECC in an informal way. The Applicant was looking for an endorsement from the ECC for the replacement of the wetlands that were lost.

Mr. Richardson asked them to clarify whether the buffer will remain undisturbed.

Ms. Raub asked about how large the new parking area would be. Mr. Juliano said about 22,000 square feet (0.5 acres).

Ms. Eberhardt inquired about why there was a proposed vehicle crossing when the alternative of not restoring the wetland in place was to avoid a crossing. Mr. Seekamp replied that the owner did not wish to have one of his sites landlocked but if there was intent to build a crossing a separate application would have to be filed with NHDES.

Mr. Briselden shared the same concern but noted on plan C-2 states it was for information only. He suggested if the Commission approved this it would be noted that we are not endorsing the crossing. The Commission has not agreed to the crossing as part of this resolution.

Mr. Gregoire moved to endorse the remediation with the caveat that the proposed vehicle access is information only.

Ms. Eberhardt asked to table the motion and asked to clarify if there were resources set aside for further monitoring after the project is complete. Mr. Seekamp said it is a condition of the permit issued is the success of the remediation. New Hampshire requires five years of monitoring after a completed project. Mr. Richardson asked if monitoring reports come to the town. Ms. Murphy added that through the wetland remediation process we typically receive reports on the monitoring.

Without further discussion Mr. Richardson seconded the motion made by Mr. Gregoire. VOTE: Unanimous

Ms. Eileen Flockhart of 62 Park Court, reported to the ECC her progress made from the last meeting on the tree planting project. She said she had talked to neighbors and other residents about it and she received positive comments and further contacts to get in touch with.

2. Introduction to the application for Tuck Woods and Squire place at 80 Epping Road. Upon request of the applicant this item was removed from the agenda.

3. Committee Reports

a. Trails: Mr. Gregoire said he was planning the next meeting and they will be discussing re-blazing trails. Ms. Murphy added that the New England Mountain Biking Association Memorandum of Understanding was recommended to the Board of Selectman for the MOU to be signed. Ms. Murphy said there were minor edits and that the insurance certificate was in the works.

Ms. Eberhardt commented that there was a large amount of dog feces left on the Henderson-Swasey trails.

Ms. Murphy reported the Swim and Racket club wish to maintain access to the trails outside their building. Mr. Richardson commented that the right of way access differed from where the trail was located.

b. Outreach

Mr. Gregoire announced that the Rayne's Snowshoe event had a very good turnout. Ms. Murphy said there were 66 + attendees. Mr. Briselden said that the area is building a constituency. He made a suggestion for next year to have organized groups with designated leaders. Mr. Gregoire gave credit to Ben Anderson for creating this year's flyer. Ms. Raub suggested using the website Meet Up.

Ms. Eberhardt added for next time putting copies of trail maps in the barn and possibly having volunteers answer questions in the barn.

Mr. Briselden said he had sent copies of the Rayne's Barn Development Plan to the ECC members. He reported CLD Engineers had rescheduled a meeting to give a proposal.

c. Forest Management Plan

Ms. Murphy reported that Charlie Moreno had responded with two work agreements. A summer harvest is in the works and Mr. Moreno will come back with concrete numbers. Mr. Briselden said there will be an estimated \$ 15,000 and \$20,000 in revenue. He said that the ECC can start with the invasive species.

4. Approval of Minutes: February 10, 2015

Mr. Richardson motioned to approve the minutes as amended, second by Ms. Field. **VOTE:** Unanimous

5. Natural Resource Planner's Report and Correspondence

Ms. Murphy passed out a copy of the publication Forest Notes and a reminder for the Saving Special Places Conference. Ms. Murphy requested an expense of \$205.00 for the spring tree program with Peter Waltz for the fifth graders.

Ms. Raub motioned to approve the expense of \$205.00 for the spring tree program, second by Ms. Eberhardt. **VOTE:** Unanimous

Ms. Murphy made a request for the expense of \$572.00 up from \$520.00 for membership in the New Hampshire Association of Conservation Commissions.

Mr. Gregoire said he supported the membership renewal.

Mr. Gregoire made a motion to approve the expense of \$572.00 for the membership renewal with the New Hampshire Association of Conservation Commissions, second by Mr. Briselden. VOTE: Unanimous.

Ms. Murphy added that last year the ECC had offset the cost of rain barrels sold by ECC. Last year 27 barrels were sold. Ms. Raub suggested demonstrating rain barrels at the farmer's market. Mr. Gregoire commented that he did not wish to subsidize the cost of the barrels for this year. Mr. Briselden agreed and commented there were upcoming expenses.

Ms. Murphy reported the Natural Resource Conservation Service suggests having landowners sign a Compatible Use Authorization form. Mr. Briselden suggested talking to Dwayne Hyde from the South East Land Trust.

Mr. Richardson made a comment on engaging teenagers for a trail crew. There were similar trail crews throughout New Hampshire and with the Student Conservation Association. Ms. Eberhardt said she knew someone with the Acton-Wakefield Watershed Alliance that does a trail crew.

7. Next Meeting: April 14th, 2015 7:00 pm

Ms. Eberhardt motioned to adjourn the meeting, second by Mr. Richardson. VOTE: Unanimous

The meeting was adjourned at 8: 42 pm.

Respectfully Submitted,

Sarah McGraw
