Recommended by the Board of Selectmen 2-0-2.

Article 29

On petition of John M. Maull and others, to see if the Town will vote to place road markings (center yellow lines and side shadow lines) in a manner to enhance the safety of the motoring public and those using the town roads for bicycles, jogging and walking. This will involve adopting a 10 foot travel lane for vehicles (which has been shown to reduce vehicle speed) and placing shadow lines to provide room for safer use of the shoulders for pedestrians, joggers and cyclists.

As background, narrower vehicle travel lanes on town roads encourage vehicles to travel at slower, safer speed. This enhances the safety of all and can require less speed enforcement. Currently the town is marking the travel lane at a 12-14 foot width in areas where the speed limit is 25 MPH. These wider travel lanes present the appearance of a high speed highway and encourage travel at a speed that exceeds the speed limit. The current wider travel lanes have left inadequate space outside the white “shadow” lines. Leaving more space outside of the vehicle travel lanes provides enhanced safety for walkers, joggers, citizens using scooters and bicycles. Many towns in New Hampshire have adopted this approach to enhance safety. This measure will not cost the town any more money than the placement of current lines; it will require a consistent focus on the part of the Exeter Highway Department to see that the lines are placed properly to enhance safety in our town.

To transact any other business which may legally come before this meeting.
