

Town Train Station Data

1. We own the parking lot - it was bought with a grant in 2000-01 from the feds (the grant was from the feds).
2. We lease the platform from the State - pay 3K per year.
3. We pay for liability insurance on the station to Amtrak - approx. 20K per year.
4. We have a budget for basic station upkeep - electricity supplies water sewer bills, etc...\$11,400.

So the Town's investment in the station annually is pretty minimal.

We just got a grant of \$75,000 to do stormwater streets design from the NHDES.
