

Park Street Playground Renovation

The Town of Exeter needs your valuable feedback on what amenities and elements you want in a renovated playground at Park Street? We are surveying residents to ensure the playground's renovation plans meet the community's needs.

A sustainable playground such as the one at Kid's Park is what we envision for this update. By choosing this type of playground, we expect it to last 30 plus years bringing enjoyment to the surrounding neighborhoods and Town for years to come.

The elements shown in the survey are only examples, and not all features can be implemented in the design. A final plan will utilize the suggestions given in this survey.

Please complete the survey by Sunday, July 25, 2021.

This survey is the first step in the process of gathering community input regarding the renovation. Exeter Parks and Recreation will hold a Park Street community BBQ sometime in August 2021 to engage a more in-depth dialog with the neighborhood. (date coming soon)

Swings

All types of swings will be included in the design! We want to make sure we get something for all.

5. Which swing options do you prefer the most? Select all applicable.

Check all that apply.

Tot Swings

Standard Swings

Mommy and Me swings

ADA Swing

Enclosure/Barriers

Epping Rd is a heavily traveled road with higher speed traffic. To this end, we want to know if residents would consider adding an enclosure or barrier to prevent children from getting close to the road while playing. The enclosure would need to be consistent with the neighborhood's aesthetics yet allow for safe playing by all families.

6. Would you want a safety enclosure/barrier to be built surrounding the playground area only?

Mark only one oval.

Yes

No, leave it open

7. If you answered yes for a safety enclosure/barrier, which type of enclosure/barrier would you like to see? (select 1)

Check all that apply.

Climber, Digger	Standard Swings	No, leave it open		Option 1	These look like they are all geared towards little kids. When kids park was renovated it brought the play age down to the under 6 crowd. This looks like it would be more of the same.			Yes	Option 1	yes	I think it needs to be a completely different design that kids park. Otherwise we have 2 of the same playgrounds. There are so many options out there.	Equipment for older kids.
Swing, Digger	Tot Swings	Yes	Black Aluminum Fence	Option 2	Treehouse Jungle Gym #1	Option 5	Option 1	Yes	None of the above	yes	A fence. I've never even used this park. Bc of the lack of fence.

As we already have three (LSS, MSS, and the Purple Dinosaur Park) kid-friendly parks in the surrounding area, I'd love to see part of this park become a dog park. Kids really only need a set of swings and a slide to have fun — speaking as a kid who grew up on Locust Ave, the original swings, ether ball, and tall slide provided us with all the entertainment we needed — a small kid park with an adjacent dog park would be amazing. If we can't have a dog park, I'd love for part of this park to be dedicated lawn for families who want to throw down a blanket and have a picnic.

		Standard Swings	Yes	Black Aluminum Fence	Option 2	Treeshouse Jungle Gym #5	Option 1	Option 1	Yes	Option 1, Option 5	Yes	Think about overall scale, the footprint of the park being small/denature should remain. Kids are constantly just playing pick up soccer in this park and so the large portion of grass needs to remain. People sometimes set up a volleyball net and others go out and play lacrosse. People can still use the park to see 2-3 picnic tables, would be amazing. A refresh of a few elements in the playground would be nice, but I don't want to see the park taken over by the footprint of the playground expanding too much into the grass--lets keep in mind that that would be a great way to keep people in the park in the winter.

My family loves this park, but we wish more people knew of it and used it like we do. We are usually the only ones there. Have to get the word out about new things on the way. Thank you for valuing our input.

I was able to bring my son, nephews, and niece when they ranged from ages 4-late teens, and they had hours of fun on the jungle gym. Homeschooled families with older children and teens would exchange tips on which towns in NH had the best playgrounds for older kids. One of the reasons that playgrounds have fallen out of favor with kids past the toddler years is that since the late 90s, the old challenging playground structures (see saws, teeter-totters, tall slides, high swings, high monkey bar structures) were all removed and replaced with the star and platform models. These don't appeal for long to the growing child, focused primarily on very young children. Accommodating children's equipment but they seem grow out of it. Monkey bars for various ages, a tall rope climber, and bringing back tether ball. Basketball hoops are important elements, but that would not work at Park St. park without an enclosure.
