- **How does it work?**

When an emergency occurs that meets the criteria for sending out an alert to the public, the town of Exeter's emergency service's emergency dispatchers will gather the necessary information and push out an alert to the affected area. Alerts can be sent out town-wide to everyone who has opted-in to the system or to a specific area or neighborhood for more localized events.

- **Can you guarantee that I will receive notification if I register?**

While **Exeter NH Alert** is an excellent system, we cannot guarantee that you will receive notification in all cases. Disasters and emergencies are chaotic and unpredictable, and notification is dependent on external providers such as your

wireless carrier or email delivery service outside the Town of Exeter's control. **Exeter NH Alert** will use several means of communications to try to ensure that should any one communications method, technology, or delivery option be unavailable to reach residents, other methods will be used to improve the likelihood that citizens will see the message.
