Public Information Meeting
Pickpocket Dam Feasibility Study
Tuesday, February 27, 2024, 7:00 – 9:30 PM
Exeter Town Hall, 9 Front Street, Exeter

You may know that the Pickpocket Dam on the Exeter River, located on the Town border of Exeter and Brentwood, does not meet dam safety standards - options for its modification or removal have been under consideration for several years. The Town of Exeter hired a consultant to develop and evaluate alternatives to bring the dam into compliance. A draft Feasibility Study has been prepared to summarize the evaluation of the potential impacts of the alternatives.

The draft of the Feasibility Study will be posted to the Town's website on February 20th, 2024 for public review and comment. The public information meeting will be an opportunity for the community to learn more about the Feasibility Study but also ask questions and provide input on the Study. The public comment period will extend 30-days and end on March 21st, 2024.

Comments and questions can be submitted via email to the Town at pickpocketdam@exeternh.gov or mailed to 13 Newfields Road, Exeter, NH 03833.

Meeting Objectives

- Present on the contents of the Feasibility Study
- Present on the next steps to address Pickpocket Dam's safety deficiencies
- Hear questions and comments from the public

We hope that you will be able to attend. Public participation is critical to ensuring that the feasibility study will be thorough, accurate and responsive to the community's needs.
