

ADDENDUM NUMBER 3:
EXETER 40436/X-A004(406)
KINGSTON ROAD TAP PROJECT
TRANSPORTATION ALTERNATIVES PROGRAM (TAP)
CONTRACT DOCUMENTS AND TECHNICAL SPECIFICATIONS
Issued: October 6, 2023
For Bids Due: October 16, 2023

This addendum modifies, amends, and supplements parts of the Contract Documents, Technical Specifications, and Construction Drawings for the **Exeter 40436/A-004(406) Kingston Road TAP Project**, and is hereby made an integral part thereof by reference and shall be as binding as though inserted in its entirety in the locations specified herein. The Contractor shall notify their subcontractors and suppliers of any changes or modifications contained in this addendum.

Bidders shall acknowledge receipt of this **Addendum No. 3** on the Bid Form.

Bidders are hereby notified that no changes have been made to the bid due date and time. Bids are still due on **October 16, 2023 at 2:00 p.m.**

The Contract Documents, Technical Specifications, and Construction Drawings for the subject project shall be supplemented and/or amended as follows:

A. BIDDING DOCUMENTS

1. **Bid Proposal:** A revised Bid Proposal is provided herein. This revised form shall replace the previous form entirely. Submitted proposals shall use the attached revised bid proposal form. Revisions to items are shaded in the attached bid form.
2. **Special Provisions - Amendment to Section 304 – Base Courses:** A revised Special Provisions - Amendment to Section 304 – Base Courses is provided herein. This revised special provision shall replace the previous special provision entirely.

B. CONSTRUCTION DRAWINGS

1. **Sheet N-1 – General Notes:**
Guardrail Note #1 shall be revised to reference ***31" W-Beam Guardrail with 8" Offset Block (Steel Post).***

C. RESPONSE TO BIDDER'S QUESTIONS

1. *It has been brought to my attention that there are no specifications on the plans for the streetlights that are to be placed on Kingston Rd. there is a question of height and illumination specifically.*

Response: Please see the special provision for Item 665.21 – Street Lights (Kingston Road) in Section E – Technical Specification of the contract documents. All required specifications are detailed there.

2. *Also pertaining to the streetlight (665.21) there seems to be a written dollar amount in the description that was not carried over to the total. We were wondering if that was a mistake, should it be in the total? It would not be possible given that price.*

Response: There should not be a written price in the Bid Schedule for Item 665.21 – Street Lights (Kingston Road). A Revised Bid Proposal has been included as part of Amendment No. 3.

3. *Item 202.45- Removal of Drainage Pipe Sediment can you please let us know the location as there are no details in the plans. Where is the pipe located, diameter, run length. Is it between manholes or cross culverts?*

Response: Removal of Drainage Pipe Sediment is proposed at existing pipes that the project will modify, whether by adding a structure, or extending the length of pipe, or accepting drainage flows from the project site. The following is a list of anticipated locations:

Drain Note	Station	to	Station	Side	Length (FT)	Pipe Diameter (in)
1	103+96		104+19		40	12
3	113+70		113+70		62	21
5	129+79		129+76		50	12
7	150+12		150+75	LT	58	12
10	152+05		152+05		41	12
	151+60		153+40	RT	200	12

4. *So, you are looking to extend the rail 191' and reset the EAGRT*

Response: Correct. The guardrail will be extended south along the east side of Kingston Road approximately 191' from the southeast corner (from the end of the existing bridge rail transition) of the bridge over the Little River, and the existing EAGRT will be reset at its terminus.

5. *Do you have a proposed offset from the edge of pavement to the face of the guardrail?*

Response: Per the Kingston Road Typical Section – Shoulder Widening and Sidewalk With Curb (Sta. 153+37 RT – Ste. 156+60 RT) located on Sheet TYP-2 (Sheet 5 of 42), the face of guardrail shall be set at the back of sidewalk (0' offset from back of sidewalk).

6. *Will the gas line be relocated?*

Response: No. The location of the existing gas line and proposed guardrail from Sta. 153+50 Rt to Sta. 156+29 RT has been reviewed in the field and determined that relocation is not required.

7. *Is there a particular reason you've noted 8' posts?*

Response: Item 606.18001 – 31" W-Beam Guardrail with 8" Offset Block (Steel Post) shall be installed on the project. The guardrail note on Sheet N-1 (Sheet 2 of 42) should state 31" W-Beam Guardrail with 8" Offset Block (Steel Post). 8' posts are not required.

8. *Last thing is guardrail is measured in 6.25' spaces so lengths should be divisible by that.*

Response: When the guardrail is installed, it should be laid out in 6.25' increments. Due to matching to the existing bridge rail approach and relocation of the EAGRT, the exact length installed may fluctuate from what is noted in the plans to attain 6.25' increments. This fluctuation has been accounted for in the quantity calculation.

9. *On G-5 structures 8A and 10 are very shallow. Based on communication with the precast vendors there is concern that the pipes will not have the required head space on the riser of the CBs. It appears that the run of pipe's elevation's are controlled by the existing line that runs under Kingston Road. Is it possible to have a butt joint between the CB riser and slab top approved for these two structures?*

Response: It is understood that these structures have a shallow rim to invert elevation difference. We have designed and overseen installation of structures with similar rim to invert elevations. The structures may require custom modifications including eliminating the shiplap joints between the slab top and riser, and securing the top to the riser with pins or straps.

10. *Please confirm materials in section 304 are final pay quantities and will be paid for by price per cubic yard as section 5.1 indicates. Section 5.3 seems to contradict this saying they will be paid as price per cubic yard in place. The bid schedule indicates the Gravel and Crushed gravel are to be accepted as final pay items and the crushed gravel for shoulder leveling and crushed gravel for drives are to be by cubic yard in place. Please confirm this is the intention.*

Response: Items in this project under Section 304 will be measure/paid under one of the following methods and are noted below:

- Not be measured, but shall be the cubic yard final pay quantity, denoted with an (F)
 - Item 304.2 – Gravel (F)
 - Item 304.3 – Crushed Gravel (F)

- Measured by the cubic yard of compacted materials placed within the limits shown on the plans
 - Item 304.101 – Sand
 - Item 304.35 – Crushed Gravel for Drives
- Measured by the ton
 - Item 304.32 – Crushed Gravel for Shoulder Leveling

A Revised Special Provision – Amendment to Section 304 – Base Courses has been included as part of Amendment No. 3 to clarify this.

Please acknowledge this Addendum within your proposal; failure to do so may disqualify the Bidder.

END OF ADDENDUM NO. 3

EXHIBIT A BID PROPOSAL

Bidder: _____

Project: Exeter 40436/X-A004(406)
Kingston Road TAP Project

OWNER: Town of Exeter, New Hampshire

The undersigned, hereafter referred to as the BIDDER, has examined the Contract Documents prepared in connection herewith by CMA Engineers, Inc., the ENGINEER. In addition, he has examined the site and is familiar with all the conditions surrounding the Work contemplated.

BIDDER agrees to perform all the work described in the CONTRACT DOCUMENTS for the following unit prices or lump sums:

Total Bid:

(Figures) _____

(Written) _____ dollars and _____ cents

The undersigned, as Contractor herein referred to as singular and masculine declares as follows:

- (1) The only parties interested in the BID as Principals are named herein;
- (2) This BID is made without collusion with any other person, firm, or corporation;
- (3) He has carefully examined the site of the proposed work and is fully informed and has satisfied himself as to the conditions there existing, the character and requirements of the proposed Work, the difficulties attendant upon its execution. He has carefully read and examined the Drawings, the proposed AGREEMENT and the Specifications and other Contract Documents therein referred to and knows and understands the terms and provisions thereof;
- (4) He understands the information relative to subsurface and other conditions, natural phenomena, existing pipes and other structures (surface and/or subsurface) has been furnished only for his information and convenience without any warranty or guarantee, expressed or implied, that the subsurface and/or other conditions, natural phenomena, existing pipes and other structures (surface or subsurface) actually encountered will be the same as those shown on the Drawings or in any other Contract Documents and he agrees that he shall not use or be entitled to use such information made available to him through the Contract Documents or otherwise obtained by him in his own examination of the site, as a basis of or ground for any claim against the Owner or Engineer arising from or by reasons of any variance which may exist between the aforesaid information made available to, or otherwise obtained by, him and the subsurface and/or other conditions, natural phenomena, existing pipes and other structures (surface and/or subsurface) actually encountered during the construction work, and he has made due allowance therefore in the BID;
- (5) He understands that all reports of investigations and tests of subsurface physical conditions at the site and other information affecting the performance of the Work which have been relied upon by the Engineer in preparation of the Drawings and Specifications are not guaranteed as to accuracy or completeness and are not part of the Contract Drawings.
- (6) And he understands that the quantities of work tabulated in this Proposal and indicated on the Drawings and in the Specifications and other Contract Documents are approximate and are subject to increase or decrease as deemed necessary by the Engineer, and as allowed for under the Contract Documents.

The undersigned agrees that for extra work, if any, authorized in writing by the Engineer to be performed by him in accordance with the terms and provisions of the Agreement, he will accept compensation as stipulated in the Contract Documents in full payment for such extra work, and agrees that for reductions in work as directed by the Engineer, he will accept reduced compensation as stipulated in the Contract Documents.

If this Bid Proposal is accepted by the Owner, the undersigned agrees to substantially complete the work provided to be done under the Contract within specified number of calendar days as defined in the Agreement from the date of start of the Contract (as defined in the Notice to Proceed), and accepts the provisions of the Agreement as to liquidated damages in the event of failure to complete work on time, except as otherwise expressly provided in the Agreement.

The Bidder hereby agrees that, once opened, he will not withdraw this Bid within 90 days of Bid opening, and that if the Owner shall accept this Bid, the Bidder will duly execute the Contract and provide BONDS as provided in the Instructions to Bidders.

Additional Bid Representations

Unit prices include overhead and profit, in accordance with the General Conditions

The OWNER reserves the right to add or delete any of the above work items.

The BIDDER agrees that the Work will be completed in accordance with the General Conditions within the specified contract time.

The Bidder accepts the provisions of the Agreement as to liquidated damages in the event of failure to complete work within the times specified in the Agreement.

The following documents are attached to and made a condition of this Bid:

- A. Required Bid security
- B. Affidavit of Non-Collusion

Communications concerning this Bid shall be addressed to (the address of Bidder indicated below):

Terms used in this Bid which are defined in the General Conditions or Instructions to Bidders will have the meanings indicated in the General Conditions or Instructions to Bidders.

Construction Proposal

It is proposed:

To execute the Contract and begin work within 10 days from the date specified in the “Notice to Proceed” and to prosecute said work so as to complete the Exeter 40436/X-A004(406), Kingston Road TAP Project and its appurtenances on or before the dates or contract duration specified in The Contract Agreement.

To furnish a Contract Bond in the amount of 100 percent of the Contract award, as security for the construction and completion of the Exeter 40436/X-A004(406), Kingston Road TAP Project and its appurtenances in accordance with the Plans, Specifications and Contract. The Contractor’s attention is called to Section 103.05 of the NHDOT Standard Specifications for road and bridge construction which provides the following guidance: unless specifically waived in the Proposal, upon execution of the Contract, the successful Bidder shall furnish the OWNER a surety bond or bonds equal to the sum of the Contract amount. The form of the bond(s) shall be acceptable to the OWNER and the bonding Company issuing the bond(s) shall be licensed to transact business in the State of New Hampshire.

To certify that the Bidder, in accordance with the requirements of 103.06 and 108.01, intends to sublet, assign, sell, transfer or otherwise dispose of one or more portions of the work and (1) has contacted the appropriate listed disadvantaged businesses and afforded such disadvantaged businesses equal consideration with non-disadvantaged businesses for all work the Bidder currently proposes to sublet, assign, sell, transfer or otherwise dispose of, (2) may contact additional appropriate disadvantaged businesses and will afford such businesses equal consideration with non-disadvantaged businesses for all the work the Bidder in the future proposes to sublet, assign, sell, transfer or otherwise dispose of, and (3) will complete enclosed "DISADVANTAGED BUSINESS ENTERPRISE COMMITMENT FORM" and Letters of Intent for each disadvantaged business. The name of the person in the Bidder's organization who has been designated as the liaison officer to administer the disadvantaged business enterprise program is:

(To be completed by the Bidder)

To guarantee all of the work performed under this Contract to be done in accordance with the Specifications and in good and workmanlike manner, and to renew or repair any work which may be rejected, due to defective materials or workmanship, prior to final completion and acceptance of the project.

Enclosed herewith find certified check or bid bond in the amount of _____
_____dollars and _____ cents (\$ _____),
made payable to the OWNER as a proposal guarantee which it is understood will be forfeited in the event the Contract is not executed, if awarded by the OWNER to the undersigned.

Certification Regarding Debarment, Suspension, and Other Responsibility Matters – Primary Covered Transactions.

(1). The prospective primary participant certifies to the best of its knowledge and belief, that it and all its principals: (a) Are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from covered transactions by any Federal department or agency; (b) Have not within a three-year period preceding this proposal been convicted of or had a civil judgment rendered against them for commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (Federal, State or Local) transaction or contract under a public transaction; violation of Federal or State antitrust statutes or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, or receiving stolen property; (c) Are not presently indicted for or otherwise criminally or civilly charged by a governmental entity (Federal, State or Local) with commission of any of the offenses enumerated in Paragraph (1) (b) of this certification and (d) Have not within a three-year period preceding this application/proposal had one or more public transactions (Federal, State or Local) terminated for cause of default. (2). Where the prospective primary participant is unable to certify to any of the statements in this certification, such prospective participant shall attach an explanation to this proposal.

Contract Affidavit

I/We declare under penalty of perjury under the laws of the United States and the State of New Hampshire that, in accordance with the provisions of Title 23 USC, Section 112(c), have not either directly or indirectly entered into any agreement, participated in any collusion or otherwise taken any action in restraint or free competitive bidding in connection with this proposal.

SPECIAL PROVISION

AMENDMENT TO SECTION 304 – BASE COURSES

Amendment to Method of Measurement

Paragraph 4.1 is removed and replaced with the following:

4.1 Roadbed base course materials of gravel, crushed gravel, crushed stone (fine gradation), and crushed stone (coarse gradation) will not be measured, but shall be the cubic yard final pay quantity in accordance with 109.11 of compacted material required within the lines shown on the plans.

Paragraph 4.1.1 is added:

4.1.1 Roadbed base course materials of sand and crushed aggregate for shoulders will be measured by the cubic yard of compacted material placed within the limits shown on the plans.

Amendment to Basis of Payment

Paragraph 5.1 is removed and replaced with the following:

5.1 Roadbed base course materials of gravel, crushed gravel, crushed stone (fine gradation), and crushed stone (coarse gradation) are final pay quantities and will be paid for at the Contract unit price per cubic yard in accordance with 109.11.

Paragraph 5.3 is removed and replaced with the following:

5.3 The accepted quantity of sand and crushed gravel for drives, will be paid for at the Contract unit price per cubic yard complete in place. The accepted quantity of crushed gravel for shoulder leveling will be paid for at the Contract unit price per ton delivered and used on the project.

Add to Pay Items and Units

304.101

Sand

Cubic Yard
