

Town of Exeter

Swasey Parkway Site Walk Meeting 6/24/2020

Approved Minutes

Present: Dave Short, Mark Damsell, Dwane Staples

Meeting opened at 5:40pm at the Water St. end of the Parkway.

The trustees discussed the proposed pocket park that we had received an email on. After some discussion it was decided to invite Renal to our next meeting to talk to the Trustees about this idea. No vote was taken on this.

The Trustees next walked to the proposed site in the Parkway for the Sewer Siphon project that was received by email. Mr. Staples has spoken with Matt Berube about the Trustees being involved as the concern is that there will be benches and possibly trees that are in memory of people that will need to be moved or permanently removed.

The walk continued to the pavilion where Mr. Short has been involved in trying to get repairs done to the Pavilion. He has asked contractors for pricing and is presenting them to the Town in hopes that the repairs can be done on the Pavilion.

The Music festival to be held by Team came up as a topic of discussion. It was the feeling of a majority of the Board that it was too early to hold an event like this in Town. No vote or action was taken on this topic.

Watering of the newly planted trees was discussed and Mr. Damsell is going to put the water tank in his truck and put watering bags on trees that appear to need to be watered. The other Trustees will help with this job.

The Trustees discussed the mowing and while it is an ok job the Trustees had some concerns that Mr. Short is going to discuss with the contractor.

The Trustees also discussed installing a Kiosk in the front of the Parkway to have rules and other items of interest on. This has been discussed in the past Mr.

Damsell told us. Mr. Damsell is going to look into Kiosks and pricing. No vote was taken on action on this topic.

Motion to adjourn by Mr. Damsell and seconded by Mr. Staples vote passed unanimously.

Adjourn 6:55pm

Respectfully Submitted

Dwane Staples, Chair
