

Town Of Exeter

Swasey Parkway Trustee Meeting Site Walk for 10/14/2021

Draft Minutes

Present: Dave Short, Dwane Staples

The meeting opened at 8:00am in the Parkway. Present also were representatives from the Exeter water department and Wright Pierce the engineering firm for the project.

The Trustees were shown where the siphon pipe will be installed in the Parkway and going across the road and ending in front of the white fence with a concrete structure in the lawn area. It was decided that one Crimson King Maple tree will need to be removed and the Trustees present agreed. It was also discussed about access to the structure once completed and the Trustees agreed that will need to be done.

A tentative time schedule was discussed and is not final due to this project needing to be voted in favor of in March of 2022.

Adjourn 8:35am

Respectfully Submitted,

Dwane Staples, Chair
