

New Water/Sewer Rates Go Into Effect with October 30th, 2019 Billing

New water and sewer rates will go into effect with bills dated October 30th. The new rates will impact the last three billing cycles of the year in October, November, and December. A user of 10,000 gallons per quarter will see their quarterly bill increase approximately \$68. A user of 12,000 gallons per quarter will see their quarterly bill increase approximately \$81. The increases are largely related to the construction of the new wastewater facility, main pump station, and forcemains project. The town has increased user fees to pay for the project.

Water/Sewer Fees

Effective with October 30th, 2019 billing cycle

Current Fees

Water Rates		Old Rates	New Rates
Tier			
1	Up to 21,000 gallons quarterly usage	8.12 per 1,000 gallons	8.38 per 1,000 gallons
