“Call to Prevent Nuclear War” Resolution/Warrant Article

Whereas nine nations together have over 14,000 nuclear weapons in their arsenals, most far more destructive than the two that killed hundreds of thousands in Japan in 1945;

Whereas detonation of even a small number of these weapons could have catastrophic human and environmental consequences (called “**Nuclear Winter**”) affecting everyone on the planet;

Whereas the United States maintains hundreds of nuclear missiles in underground silos on hair-trigger alert, to be launched within minutes with great risk of an accidental, mistaken or unauthorized launch;

Whereas the United States reserves the right to use nuclear weapons first, making a nuclear war more likely;

Whereas the U.S. president has the sole and unchecked authority to order the use of nuclear weapons;

Whereas over the next 30 years, the United States plans to spend an estimated \$1.7 trillion to replace its entire nuclear arsenal;

Whereas the United States, as well as Britain, China, France and Russia, are obligated under the Nuclear Non-Proliferation Treaty (NPT) to take concrete steps toward eliminating their nuclear arsenals;

NOW THEREFORE BE IT RESOLVED that the **Town of Exeter** calls upon the U.S. government to spearhead a global effort to prevent nuclear war by:

- Renouncing the option of using nuclear weapons first;
- Ending the sole, unchecked authority of any president to launch a nuclear attack;
- Taking U.S. nuclear weapons off hair-trigger alert;
- Cancelling the plan to replace its entire arsenal with enhanced weapons, and
- Actively pursuing a verifiable agreement among nuclear-armed states to eliminate their nuclear arsenals.

AND BE IT FURTHER RESOLVED that our **Selectboard** will send copies of this resolution with a record of its adoption vote to Governor Sununu and to all members of our Congressional Delegation.

Article 30 – Petition Article

We, the undersigned registered voters of the Town of Exeter, NH, request that the following and fully attached article be placed on the 2019 Town Warrant:

On the petition of Maura Fay and other registered voters of Exeter, in an effort to protect the health and safety of its residents by asserting a right to clean air, water, and soil, and a right to a healthy ecosystem, to see if the Town will vote the following:

Shall the Town of Exeter adopt the “Right to a Healthy Climate Ordinance” to protect the health, safety and welfare of the residents and ecosystems of Exeter, New Hampshire, by establishing a Community Rights-Based Ordinance recognizing that all residents and ecosystems of Exeter possess the right to a healthy climate free from activities that would infringe that right, and calls for constitutional changes to further secure these rights?

Right to a Healthy Climate Ordinance

Establishing a Community Rights-Based Ordinance for Exeter, New Hampshire, That Prohibits Activities and Projects that would Violate Rights Secured by the Ordinance

Preamble

We hold these truths to be self-evident, that all people are created equal, that they naturally are endowed with certain unalienable rights that among these are life, liberty, and the pursuit of happiness. That to secure these rights, the people institute governments, which derive their just powers from the consent of the governed.

Further, that whenever any form of government becomes destructive of these ends, it is the right of the people to alter or abolish it, and to institute new government, laying its foundation on such principles and organizing its powers in such form, as to them shall seem most likely to effect their safety and happiness.

This right of self-government, as stated in the Declaration of Independence, is natural, fundamental, and unalienable. It is also secured to us by the United States Constitution and the Constitution of the State of New Hampshire.

Pursuant to that right of self-government, if our current system of local government infringes our rights, we, the people of Exeter, have the right to alter or replace that system with one that secures and protects human rights and ecosystem rights, as long as the new system does not infringe other rights protected for us by state or federal law.

Exeter is situated where the Exeter River feeds the tidal Squamscott River and lies fully within the coastal Piscataqua River Watershed which includes the sub-watersheds of the Great Works River and the five rivers flowing into the unique and sensitive estuary within Great Bay: the Bellamy, Oyster, Lamprey, Squamscott, and Winnicut; covering over a thousand square miles in New Hampshire, Maine, and

Massachusetts and comprising an ecosystem upon which hundreds of thousands of people and countless species depend for health, drinking water, and survival.

It is our legislative determination that certain corporate activities are detrimental to our rights, health, safety, and welfare. These activities include but are not limited to: the runoff from commercial use of fertilizers, the intentional or unintentional dumping of toxic waste, and the physical deposition, emission, leakage, disposal, or placement of toxins into the land, air or waterways from extraction, transportation, processing, storage, conveyance, and depositing of waste from fossil fuel exploration and development.

As we are purportedly constrained by state and federal law, which courts interpret to require us to accept such harmful corporate activity, we the people of Exeter are unable under our current system of local government to secure human rights and ecosystem rights by banning said activity.

Therefore, we deem it necessary to alter our system of local government, and we do so by adopting this Right to a Healthy Climate Ordinance.

Section 1 - Statements of Law

- (a) Right of Self-Government.* All residents of Exeter possess a right of self-government, which includes, but is not limited to, the following rights: first, the right to a system of local government founded on the consent of the people of the municipality; second, the right to a system of local government that secures their rights; and third, the right to alter any system of local government that lacks consent of the people or fails to secure and protect the people's and ecosystems' rights, health, safety, and welfare. Any action to annul, amend, alter, or overturn this Ordinance shall be prohibited unless such action is approved by a prior Town vote at which a majority of the residents of the Town vote to approve such action.
- (b) Right to a Healthy Climate.* All residents of Exeter possess a right to a stable and healthy climate system capable of sustaining human societies, which shall include the right to be free from all corporate activities that infringe that right, including but not limited to the runoff from commercial use of fertilizers, the intentional or unintentional dumping of toxic waste, and the physical deposition, emission, leakage, disposal, or placement of toxins into the land, air, or waterways from extraction, transportation, processing, storage, conveyance, and depositing of waste from fossil fuel exploration and development.
- (c) Right of Ecosystems and Natural Communities.* All residents of Exeter possess the right to clean air, water, and soil, which shall include the right to be free from all corporate activities that release toxic contaminants into the air, water, and soil, including but not limited to the runoff from commercial use of fertilizers, the intentional and unintentional dumping of toxic waste, and the physical deposition, emission, leakage, disposal, or placement of toxins into the land, air, or waterways from extraction, transportation, processing, storage, conveyance, and depositing of waste from fossil fuel exploration and development.
- (d) Rights of Ecosystems and Natural Communities.* Ecosystems and natural communities within Exeter possess the rights to naturally exist, flourish, regenerate, and evolve; rights to restoration, recovery, and preservation; rights to a stable and healthy climate system capable of sustaining ecosystems and natural communities; rights to clean air, water, and soil; and which also shall include, but not limited to, the right to be free from all corporate activities that infringe these rights, including but not limited to the runoff from commercial use of fertilizers, the intentional

and unintentional dumping of toxic water, and the physical deposition, emission, leakage, disposal, or placement of toxins into the land, air, or waterways from extraction, transportation, processing, storage, conveyance, and depositing of waste from fossil fuel exploration and development.

(e) Right to Protection from Government and Corporate Interference. All residents of Exeter and the Town of Exeter, as well as ecosystems and natural communities within Exeter, possess the right to enforce this Ordinance free of interference from corporations, other business entities, and governments. That right shall include the right to be free from ceiling preemption, because this Ordinance expands rights and legal protections for people and nature above those provided by less-protective state, federal and international laws.

Section 2 - State and Federal Constitutional Changes

Through the adoption of this Ordinance, the people of Exeter call for amendment of the New Hampshire Constitution and the federal Constitution to expressly secure the inherent right of local self-government, free from governmental restriction, ceiling preemption, and nullification by corporate “rights.”

Once adopted at Town Meeting, the Ordinance is effective immediately and signed and dated by the town selectmen in accordance with NH RSA 31:128.

The Select Board voted 2-2-1 regarding recommendation of this article.
