**Article 2 Zoning Amendment #1:** Are you in favor of the adoption of Amendment #1 as proposed by the Planning Board for the town zoning ordinance, as follows: Introducing a new allowable use to the C-1 and WC Districts named Mixed Use Neighborhood Development (MUND). MUND would allow for mixed use development to occur at different scales in three existing mixed-use areas of Exeter: Downtown, Lincoln Street, and Portsmouth Avenue. The amendment is the result of the Exeter Housing Future project, which emerged from the recently adopted Community Master Plan. MUND uses a series of incentives to create a mix of housing units (including 10% deed-restricted affordable units) and neighborhood scale commercial operations. Design standards are included to ensure high quality development that is consistent with the scale and historic character of these neighborhoods. New definitions and amendments to the table of allowable uses are included in this article.

**YES 1449\* NO 648**

**Article 3 Zoning Amendment #2:** Are you in favor of the adoption of Amendment #2 as proposed by the Planning Board for the town zoning ordinance, by modifying Article 9.1. Wetland Conservation District? The purpose of this amendment is to consolidate wetland buffer impact regulations into a single procedure, bring clarity and legal robustness to the application process and submission requirements, and update any references to external regulations. This amendment will accomplish this by making the following changes:

- Consolidate the wetland conditional use permit process under 9.1.6 and wetland waiver process under 9.1.6.C. and further defined under the Site Plan Review and Subdivision Regulations 9.9, into a single conditional use permit process addressed in the zoning ordinance 9.1. Where criteria for the two procedures differ, the more conservative of the two procedures have been included to ensure the regulations retain the current level of protection.
- Add "as amended" throughout where items reference other regulations.
- Replace the wetland buffer descriptive text with a table consolidating the current conditional use permit buffers and wetland waiver setbacks (9.1.3).

- Remove the definition for no-cut buffer, add definitions for limited use buffer and setback, defer to state definitions for vernal pools and wetland delineation, update reference to regulations or agencies, and arranging definitions into alphabetic order (9.1.4)
- Move criteria-based language within permitted or conditional uses out of the individual uses and into the header category (9.1.5, and 9.1.6).
- Remove water impoundment from the list of permitted uses (9.1.5.F).
- Clarify the application review and submission process defined under conditional uses (9.1.6).
- Clarify the temporary impact restoration and buffer preservation requirements by separating them into individual criteria (9.1.6.B.6 and 7)
- Clarify the enforcement process (9.1.11).

(Majority vote required) Recommended by the Select Board 5-0.

**YES 1690\* NO 687**

**Article 25**

By petition, shall the Town vote to express its opposition to the Granite Bridge Pipeline project.

The scope of this project vastly exceeds the current and future energy demands in New Hampshire. The likely changes in energy production could result in ratepayers paying for technology that will be obsolete before it's operational. Public Utilities Commission contracted consultants reviewing the project have said the proposed plan is excessively costly and overbuilt for the long term energy needs of New Hampshire.

As of January 1, 2020, the project includes a 27 mile fracked gas pipeline along Rt. 101 from Manchester to Exeter, a metering station at the site of the Exeter water treatment plant and the construction of a 2 billion cubic foot storage tank (larger than the rainbow tank in Boston) in the Epping quarry. The pipeline would cross the Lamprey River twice and run alongside Lake Massabesic potentially threatening drinking water supply.

The safety risks of gas pipelines is evident in the recent leaks and explosions in Keene and Lawrence, Massachusetts.

Furthermore this fossil fuel project with its methane emissions and carbon dioxide is in opposition to the principles of Exeter's "Right to a Healthy Climate Ordinance" passed in 2019 and the Select board's vote to support the goals of the Paris Climate Agreement.

Upon passage the voters request that the Select board send copies of this resolution with a record of the vote to Liberty Utilities, the Public Utilities Commission, the Site Evaluation Committee, and all State Senators.

**YES 1605\* NO 897**

**Article 26**

By petition, shall the Town vote to raise and appropriate the sum of \$1,500 dollars and no cents to defray the expense of the annual Exeter Holiday Parade for the public under the direction of the Selectmen or a committee to be appointed to serve gratuitously for this purpose. (Majority vote required) Recommended by the Select Board 5-0.

**YES 1921\* NO 520**

**Article 27**

**New Hampshire Resolution to Take Action on Climate Pollution**

By petition, shall the Town vote to call upon our State and Federal elected representatives to enact carbon-pricing legislation to protect New Hampshire from the costs and environmental risks of continued climate inaction. To protect households, we support a Carbon Fee and Dividend approach that charges fossil fuel producers for their carbon pollution and rebates the money collected to all residents on an equal basis. Enacting a Carbon Cash-Back program decreases long-term fossil-fuel dependence, aids in the economic transition for energy consumers, and keeps local energy dollars in New Hampshire's economy. Carbon Cash-Back has been championed by US economists (Jan 17, 2019 WSJ) as the most effective and fair way to deliver rapid reductions in harmful carbon emissions at the scale required for our safety.

We expect our representatives to lead in this critical moment for the health and well-being of our citizens and for the protection of New Hampshire's natural resources upon which we all rely.

The record of the vote approving this article shall be transmitted by written notice to EXETER's State Legislators, to the Governor of New Hampshire, to EXETER's Congressional Delegation, and to the President of the United States, informing them of the instructions from their constituents, by EXETER's Select Board, within 30 days of this vote.

**YES 1756\* NO 731**

**Article 28**

By petition, shall the Town vote to urge that the New Hampshire General Court, which is obligated to redraw the maps of political districts within the state following the 2020 census, will do so in a manner that ensures fair and effective representation of New Hampshire voters. That in order to fulfill this obligation the New Hampshire General Court shall appoint an independent redistricting commission that draws the new district maps in a way that does not rely on partisan data such as election results or party registration or favor particular political parties or candidates.

The record of the vote approving this article shall be transmitted by written notice from the selectmen to the town of Exeter's state legislators and to the Governor of New Hampshire informing them of the instructions from their constituents within 30 days of the vote.
